Your LuMing Chart

*This is a LuMing Chart based on birth time, which contains Chinese symbols. It's not important to not understand the meaning of these symbols.

I . INTRODUCTION

In the past 30 years, you have always felt full of hardships and life was hard.

You rarely receive help from friends, you always face various difficulties alone. You have an impatient personality, and you are always in a frenzy, making it difficult for you to truly calm down.

Your childhood was not good, you didn't have a good family environment. Your parents are always arguing, which has affected your childhood, making you lonely, insecure, and irritable.

The misfortunes of childhood have caused your irritable and irritable personality. You don't feel secure, you have to be strong because few people help you. So in the past, you always felt that life was very difficult.

Your physical health is very poor. Since childhood, you have been suffering from mental mania, like an easily detonating bomb, so you can't control yourself and sometimes harm others.

When you get older, you are always in anxiety and have mental illness. Health is always a big problem. You also have hypertension, diabetes, Vitiligo and other diseases. You are young, but you have to go to the hospital frequently.

You look very thin and weak, constantly in a state of mental excitement. Your body is always uncomfortable, and you hope to have a healthy body. For this reason, you have tried various treatments, but cannot truly cure them.

You have been divorced once, which has caused great harm to you. You are very short of money, but your health issues prevent you from working for a long time. So you start complaining about the unfairness of destiny, and you want to know when you can recover your health, work hard, and solve your problems.

In some years, the disease begins to become severe and seriously affects your normal life.

No one wants to get sick, everyone wants to have a healthy body, but some people have to face the impact of various diseases.

We are not doctors, so we cannot treat your illness or provide medical advice. However, we can analyze the different physical conditions each year based on LuMing, which is still an understanding of trends. After you know these health trends, you need to handle them yourself.

II . Know Yourself

In the past, you were unlucky, but don't give up hope. The future is beautiful and lasts for a long time.

You must believe that this is not something you have caused, but rather an intangible destiny that tends to happen.

Your personality is irritable and it's difficult to truly calm down, which keeps your spirit working all the time. After a long period of development, it has led to mental decline, auditory hallucinations, and visual hallucinations. It makes you mentally abnormal, which in turn affects your work and marriage, making everything bad.

You need to learn to control your own shortcomings and allow your body to slowly recover. You also need to go to a regular hospital for medical treatment to help the disease recover faster.

Health is the foundation of everything, and your marital life is also influenced by health, leading to divorce. You must overcome these problems before work and life can return to normalcy.

Health also has a trend curve, and learning to understand its trends can prepare in advance.

The Reasons for the Formation of Destiny

The family environment you had when you were a child made you sensitive and insecure. As an adult, this affects your emotions as you always become impatient, aggressive, and suspicious. And you always refuse help from others. You don't like to communicate with others and always keep quiet on your own. Your thinking is very chaotic, you cannot distinguish between illusion and reality, you blur the boundaries, which affects your life and leads to the occurrence of mental illness.

In addition to mental illness, it is also accompanied by hypertension, diabetes and other diseases, so health is your biggest problem. Only by keeping healthy can you have a better future.

We need to understand how your health will change in different years. You need to understand the changes in the LuMing curve so that you can better understand yourself and be prepared in advance.

The Meaning of Effort

Effort is important, although the trend of destiny may be known in advance through LuMing, effort is also very important. For example, the height of wealth in a very lucky year for wealth growth. Whether you can earn \$10000 or \$100000 depends on your own efforts. What remains unchanged is that these are all lucky years. But the quantity and degree depend on effort.

In a year of good luck, hard work can elevate wealth and career to higher heights. In a year of bad luck, hard work can minimize losses. All of this depends on effort.

Therefore, destiny does not make people negative. Understanding destiny and mastering the rules of LuMing will make you live more clearly, have a clearer understanding of your future, and have more confidence and a better life.

You have chosen the right direction, which is to understand LuMing, destiny, and yourself.
