for your work. You will be friendly with colleagues and establish good authority.

But destiny is a cycle, and in the following year, you need to pay attention to efficiency in your work. You will encounter many obstacles and pressures, which may come more from colleagues and leaders. Your job may be questioned, and your income may decrease.

In 2024, your financial fortune is still declining. You need to be careful of career and job changes. You need to be stable, avoid conflicts with leaders, and avoid losing your job.

At the same time, health issues may make you spend more. Diseases may occur in the spleen and stomach, liver and gallbladder, insomnia, etc. You will become more irritable and angry. Adjusting one's emotions and persisting in physical exercise often makes the situation less bad.

In 2026, there has been some improvement in the situation, but the problem will still not be completely resolved. Wealth will be much better than 2025, but health issues will still exist. In addition, troubles can also come from family and marriage, and you need to handle them carefully.

In 2027, try to minimize blind investment, which often means losing money. Maintaining good work completion and friendly relationships with colleagues are often more important.

In 2028, your luck will continue to rise and be much luckier than before.

## **What methods are used to obtain money**

You are suitable for work for others, not for your own business. Blindly investing can cause you to lose money.

The help of friends is very important, and at the same time, you should avoid direct business cooperation with friends, which often brings losses. You are suitable for achieving your own value in your career.

## **The Meaning of Effort**

Effort is important, although the trend of destiny may be known in advance through LuMing, effort is also very important. For example, the height of wealth in a very lucky year for wealth growth. Whether you can earn \$10000 or \$100000 depends on your own efforts. What remains unchanged is that these are all lucky years. But the quantity and degree depend on effort.

In a year of good luck, hard work can elevate wealth and career to higher heights. In a year of bad luck, hard work can minimize losses. All of this depends on effort.
